California Faucets®

ZeroDrain® Compatibilty Guide

The following chart is intended to assist you in determining a proper fit between ZeroDrain® and your sink. Please note that due to the variable nature of sinks (e.g., hole diameter, glazing thickness, material inconsistencies, etc.), the fit may slightly vary from the results below.

The ultimate determination of what constitutes a proper "fit" is subjective. This list will be updated periodically to give the most current fit assessments.

"✓" indicates a ZeroDrain® model that will fit that sink.

Brand	Model	9050Z & 9050ZF 2-5/8" Diameter Flange	9050ZB & 9050ZBF 2-1/4" Diameter Flange
